Апостроф

Два су бора напоредо расла,
Међу њима танковрха јела;
То не била два бора зелена,
Ни међ њима танковрха јела,
Већ то била два брата рођена:
Једно Павле, а друго Радуле,
Међу њима сестрица Јелица.
Браћа сеју врло миловала,
Сваку су јој милост доносила,
Најпослије ноже оковане,
Оковане сребром, позлаћене.
Кад то вид'ла млада Павловица,
Завидила својој заовици,
Па дозива љубу Радулову:
"Јетрвице, по Богу сестрице!
"Не знаш како биља од омразе?
"Да омразим брата и сестрицу."
Ал' говори љуба Радулова:
"Ој Бога ми, моја јетрвице!
"Ја не знадем биља од омразе,
"А и да знам, не бих ти казала:
"И мене су браћа миловала,
"И милост ми сваку доносила."

Кад то зачу млада Павловица,
Она оде коњма на ливаду,
Те убоде вранца на ливади,
Па говори своме господару:
"На зло, Павле, сеју миловао,
"На горе јој милост доносио!
"Убола ти вранца на ливади."
Павле пита сестрицу Јелицу:
"Зашто, сејо? да од Бога нађеш!"
Сестрица се брату кунијаше:
"Нисам, брате, живота ми мога!
"Живота ми и мога и твога!"
То је братац сеји вјеровао.
Кад то виђе млада Павловица,
Она оде ноћу у градину,
Те заклала сивога сокола,
Па говори своме господару:
"На зло, Павле, сеју миловао,
"На горе јој милост доносио!
"Заклала ти сивога сокола."
Павле пита сестрицу Јелицу:
"Зашто, сејо? да од Бога нађеш!"
Сестрица се брату кунијаше:
"Нисам, брате, живота ми мога!
"Живота ми и мога и твога!"
И то братац сеји вјеровао.

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 13.5 million, and the number of people aged 75 and over has increased from 4.5 million to 6.5 million (Office for National Statistics 2000).

There is a growing awareness of the need to address the needs of older people in the UK. The Department of Health (2000) has published a strategy for older people, which sets out a vision for the future of health care for older people. The strategy is based on the following principles: (1) older people should be able to live independently and actively; (2) older people should be able to access the services they need; (3) older people should be able to live in their own homes; (4) older people should be able to live in their own communities; (5) older people should be able to live in their own homes; (6) older people should be able to live in their own communities; (7) older people should be able to live in their own homes; (8) older people should be able to live in their own communities.

The strategy also sets out a number of key objectives for the future of health care for older people. These include: (1) to improve the quality of life of older people; (2) to reduce the number of older people who are dependent on others; (3) to reduce the number of older people who are in care homes; (4) to reduce the number of older people who are in hospital; (5) to reduce the number of older people who are in residential care; (6) to reduce the number of older people who are in nursing homes; (7) to reduce the number of older people who are in residential care; (8) to reduce the number of older people who are in nursing homes.

The strategy also sets out a number of key actions for the future of health care for older people. These include: (1) to improve the quality of life of older people; (2) to reduce the number of older people who are dependent on others; (3) to reduce the number of older people who are in care homes; (4) to reduce the number of older people who are in hospital; (5) to reduce the number of older people who are in residential care; (6) to reduce the number of older people who are in nursing homes; (7) to reduce the number of older people who are in residential care; (8) to reduce the number of older people who are in nursing homes.
